Improve Patient Safety and Workflow Efficiency Throughout Your Healthcare Facility

Zebra Understands the Needs of Healthcare Organizations

Our dedicated team understands hospital applications, processes and regulations. With our specialized printing solutions, Zebra protects patient safety and privacy while reducing errors, increasing productivity and maximizing budget.

The six leading healthcare information technology (HIT) providers have tested and authorized Zebra printers to work seamlessly with their solutions. This is just one of the reasons why almost half of the Most Wired Hospitals use Zebra printers.

Zebra Solutions Deliver Enterprise-wide Benefits

By complementing Zebra printers with application software to automate both clinical and back-office processes, healthcare facilities can streamline workflow to significantly improve productivity and business costs. They can also achieve enhanced visibility into the real-time data needed to deliver high-quality patient care and efficiently run the complex operations of a hospital and health network.

Zebra Clients include:

Malaysia

A private healthcare facility, located at the heart of Kuala Lumpur, uses a Zebra solution with ZM400 to print labels at the administration counter and specimen labels at laboratory to avoid human error.

China

One of the largest hospitals in Beijing with over 1,500 hospital beds uses a Zebra solution with TLP 2844 for patient registration to ensure accurate patient identification.

Singapore

A public hospital in the eastern part of Singapore, uses a Zebra solution with LP2824 to print labels for specimen labeling to eliminate errors.

Australia

A public health service in Australia, which covers across 8 Health Service areas, uses a Zebra TLP2844 with ethernet, to print medical records to ensure accuracy in patient identification.

Identify, Track and Manage with Zebra Barcode Solutions

Admissions

Produce on-demand barcoded, antimicrobial-coated, durable wristbands that can accurately identify patients with Zebra's HC100™ Patient I.D. Solution.

Pharmacy

Add variable data to every drug at the unit-dose level with ZM400™ and G-Series™ printers. Immediately verify and record medication dispensing, and ensure the correct administrations of medications. Protect your patients while streamlining work processes.

Patient Bedside

Immediately label blood or specimen draws at the bedside with a Zebra® QL 220 Plus™ mobile printer. Reduce errors and increase efficiency and cost-effectiveness.

Laboratory

Identify and track specimens accurately and efficiently by barcoding all samples and aliquots either at the bedside with a QL 220 Plus mobile printer or in the lab with ZM400™ or G-Series™ printers. Eliminate manual data entry to prevent errors and save cost and time.

Applications for Barcoding Throughout the Healthcare Organization

- ✓ Antimicrobial wristbanding in admissions and the emergency department
- ✓ Bedside medication administration, specimen labeling,
- ✓ Unit-dose labeling in the pharmacy
- ✓ Specimen labeling in the lab
- ✓ Blood bag labeling in the blood bank
- ✓ Film labeling in radiology
- ✓ Surgical site verification
- ✓ Labeling materials, supplies, medical records and assets like high-value equipment, for quick and easy location throughout the hospital
- ✓ ID badges encoded with patient ID and treatment details to ensure correct treatment in oncology
- ✓ Physician and staff ID badges
- ✓ Kiosk printing for self-service patient registration
- ✓ Prescription printing

Specialty Printing Solutions for Healthcare

HC100™ Patient I.D. Solution

This reliable and easy-to-use HC100 Patient I.D. Solution combines HC100 thermal printers with cartridges containing the industry's only antimicrobial-coated wristbands. It makes wristband printing easy, inexpensive and more cost-effective than laser solutions.

ZM400™

This rugged, full-sized printer for high-volume printing enhances productivity in pharmacy, lab and materials management labeling. It produces crisp, clear print quality on all label sizes, from very small slide labels to blood bag I.D. labels and medication labels.

QL 220 Plus™

The compact QL 220 Plus™ mobile printer with advanced, secure wireless connectivity is perfect for labeling at the patient's bedside. It's easy for nurses and phlebotomists to carry to the point of care via a belt clip, shoulder strap or cart.

G-Series™

The space-saving G-Series desktop printers with 4-inch widths and optional wireless connectivity are perfect for printing blood bag labels at mobile blood collection centers or producing unit-dose labels in the pharmacy.

P330i™

The easy-to-use, RFID-capable P330i card printer produces full-color cards ideal for staff and visitor identification, as well as patient health cards.

Genuine Zebra™ Supplies

With more than 1,000 combinations of high quality and reliable labels, tags, receipts, wristbands and ribbons including over 500 stock products, Zebra can meet the durability requirements of all applications. Specifically designed for the healthcare industry, Zebra produces the only antimicrobial-coated wristbands and specialty adhesives to protect labels and specimens from challenging testing and storage conditions. Zebra supplies have been extensively tested and approved by Zebra Supplies R&D to ensure high-quality, crisp images and text. Genuine Zebra supplies will increase the longevity of your printhead and keep your printer in its best operating condition.

ZebraCare™

ZebraCare Depot Service Agreements provide the finest care and attention to your printer services needs throughout the agreement period. In addition, our agreements provide you with a cost-effective means of planning and budgeting for your annual printer service needs.
